

SOME HOUSE RULES FOR YOUR SAFETY

PLEASE REMEMBER:

We appreciate your attention to our show. Come out with your family to enjoy the day. There is so much to see and so many great people to talk to on the field. Just remember, the money spent with us stays in the community.

DRIVING & PARKING

Please allow for sufficient time to drive to the Show and to park. Expect minimal delays and adjust accordingly. Please be careful when driving to the show... the activity in the sky can distract you more than normal. Watch the road and arrive at the show safely. And please don't park where you're not supposed to... if in doubt; move to where you are directed, as Show security/police will be instructed to tow unauthorized parked vehicles.

PARK & RIDE

This is the best way to enjoy your trip in and out of the grounds. Designated areas will allow you to easily get to the entrance. Buses will be given priority to and from the show. The shuttle is free for the show so to make sure you have an enjoyable day without the frustration of parking close by. Devonshire parking lot will be designated.

NO SMOKING

Please - for safety and courtesy there is NO SMOKING ANYWHERE on the Air Show grounds. The danger with the fuel in the aircrafts tanks is all too real. If you do light up on air show grounds, you will be asked to extinguish and dispose of your cigarette. Failure to comply can lead to ejection from the air field.

LITTER

Please ensure you pick up your own litter and any stray litter you may see. There are dozens of trash and recycling cans throughout the grounds. Any litter remaining on the ground can potentially cause what is known as Foreign Object Damage (FOD). FOD is defined as any article which causes, or has the potential to cause, damage to an aircraft or malfunction of an aircraft system or component. It could be an object, material or substance which gets ingested into an engine, jams a control surface, shorts out an electrical circuit, damages or punctures a tire, causes a fire or otherwise causes damage. Any number of everyday things can be FOD - paper, cardboard, plastic, discarded bags of ice, nuts & bolts, tools, the list is endless. Needless to say, it is very important we all do our part in preventing FOD - please do your part and make sure that all litter is disposed of in the designated containers found throughout the grounds.

RECYCLING

Please use the recycling bins located on the grounds. There will be plastic bins and aluminium can receptacles. Please do not toss paper in with the cans or plastic. We can all help the environment when we recycle.

FOOD & DRINK

Food or drinks should not be within ten feet of any aircraft. Some surfaces don't react well to the acids in food and beverages. A spill could mean a lengthy clean-up for an airplane owner.

NO ALCOHOL

There are no alcoholic beverages allowed in the public areas on the field. The Friday Night Wing Off will have a beer tent with a restricted area.

BE AWARE OF THE HEAT

It will be a warm day with plenty of sunshine. This means you should take precautions for potential high heat and humidity. Wear loose-fitting, light-coloured clothing and drink plenty of water. On a hot day, your body will lose more water than is required to just satisfy your thirst. Stay hydrated. Watch for the warning signs of heat-related disorders: Heat stress: symptoms may include a decrease in ability to think and reason clearly; cramps of the extremities and abdomen. Heat exhaustion: symptoms may include moist clammy skin, ashen gray color, dilated pupils, confusion, dizziness, drowsiness, weakness and vomiting. Heat stroke: symptoms may include dry hot skin, loss of consciousness, convulsions, rapid pulse and breathing that could lead to death! If the heat starts to cause these symptoms, be sure to seek medical attention right away!

ITEMS YOU BRING

Please **DO NOT BRING IN COOLERS**. Packages, knapsacks, bags, etc. will be subject to search at the gates. Also note that there are no restrictions on bottled water or cans of juice and soft drinks being brought onto the air show grounds. However, alcohol **CANNOT** be brought onto the grounds and will be confiscated at the entrance and or ejection from field.

You may bring collapsible chairs, however they must be kept away from all aircraft. Identify your chair with your name so we do not have any chairs lost. We cannot allow bicycles, skateboards, scooters or in-line skates.

These restricted items are for the safety and well big of the crowd.

NO SMOKING ANYWHERE ON AIRPORT GROUNDS

PETS

Please don't bring your pets - their ears are much more sensitive than ours and jet engine noise could hurt them.

DON'T TOUCH

Ask before touching any airplane that doesn't belong to you - the airplanes are not public property. Please don't lean against or set anything against an airplane at any time. Please respect other people's property as you would have them respect yours.

Windsor International Air Show
7 Ella Street S PO Box 2093
Tilbury ON NOP 2L0

MORE TIPS

Wear comfortable shoes. Bring sunscreen a hat and sunglasses. Bring sufficient cash to splurge on our vendors. Please respect other people's property as you would have them respect yours.

GATES OPEN AT 9:30 A.M. NO ENTRY/RE-ENTRY AFTER 3:30 P.M.

THE FOLLOWING RESTRICTIONS APPLY:

NO WEAPONS OF ANY KIND DEEMED TO BE DANGEROUS MAY ENTER ONTO THE FIELD.

NO SMOKING ANYWHERE ON AIRPORT GROUNDS

FOR YOUR CONVENIENCE:

To minimize imposition it is recommended that Air Show patrons bring ONLY necessary items on their person and limit the size and contents of carry-in items to those that are essential. Air Show concession stands feature a wide variety of food and beverage options for your enjoyment and convenience.

A "cooler" is anything that was designed to insulate. Often the contents are fine as long as they are NOT in a cooler.

Foldable chairs, strollers, cameras, blankets and handheld umbrellas are permitted.

YOUR COOPERATION AND PATIENCE ARE APPRECIATED TO MAKE IT AN ENJOYABLE DAY FOR EVERYONE.
